

SRO ESSENTIALS PROGRAMME

TARGET AUDIENCE

Senior healthcare leaders, including department heads, senior managers and other prospective SROs in the healthcare sector.

SKILLS LEVEL

Skills Level: 2 Practiced

Prerequisites: None, but familiarity with basic project management and healthcare operations is beneficial.

OUTCOMES

Gain a deeper understanding of the Senior Responsible Owner's (SRO) role and challenges, along with practical skills to drive successful project outcomes, enhance patient care, and align healthcare initiatives with organisational and system goals.

This program aims to empower healthcare leaders to become proficient and impactful SROs capable of leading successful and transformative changes in healthcare systems.

KEY COMPETENCIES

Strategic Leadership

Stakeholder Management

Governance and Risk Assessment within the context of complex healthcare projects

The SRO Essentials programme, specifically tailored for healthcare leaders, aims to equip participants with a comprehensive understanding of the Senior Responsible Owner role within the healthcare sector and includes tools, techniques, and ongoing peer networking support for successful and sustainable transformational change.
